				<b>\$ 66,703,876.00</b>	<b>\$ 11,023,469.08</b>	<b>17%</b>	<b>109.08</b>

Note: Spending and job creation numbers reflect those reported October 10, 2010 to FederalReporting.gov per Public Law No. 111-226

(1) Jobs created for each project include jobs within the City of Dayton, jobs created at other agencies who receive sub-awards from the City of Dayton, and contractors or vendors who have been contracted to complete work as a result of an ARRA project. These jobs are not differentiated in this report.

\* Although state projects are funded through the Federal Stimulus Program, job creation numbers are not listed. The City of Dayton reports financial data to the State Department facilitating the funds, who then compiles data from various sources and reports it federally.
