

The City of Dayton is encouraging city of Dayton residents to participate in a prize drawing to win energy efficiency improvements for their home from DP&L. One homeowner will be selected during a random drawing to be conducted on Wednesday, December 17.

The winning homeowner will undergo a four-week monitoring of their home energy usage and efficiencies. Once the current conditions are identified, DP&L will work with the homeowner to implement energy reduction opportunities. All enhancements to the home will be provided at no cost and will remain the property of the customer! Depending upon the results of the monitoring, the enhancements can range from new caulking around windows, more efficient lighting, air conditioning tune-ups or an entire replacement of your heating and air conditioning systems.

To qualify, the customer's home must:

- be owned by the resident;
- have an HVAC system with the air handlers in the attic or crawl space; and
- have associated duct work.

Your Name: _____

Your Address: _____

Your Phone Number: _____

Location of HVAC Equipment in Your Home: _____
